This policy pertains to the privacy practices of Trinity Health Plan Of Michigan Inc, DBA Trinity Health Plan of Michigan ("Company"). When this policy says "we," "us," "our," it means Trinity Health Plan Of Michigan Inc, / Trinity Health Plan of Michigan.

Trinity Health Plan of Michigan **NOTICE OF PRIVACY PRACTICES**

*Policy last revised February 16, 2026*

**Protection of Information**

Company understands that your information is highly personal and is committed to safeguarding your protected health information ("PHI"). Please read this Notice of Privacy Practices thoroughly. Company is required by law to maintain the privacy of PHI. We are required to provide you with notice of our legal duties and privacy practices with respect to PHI. We will only use or disclose your PHI as permitted or required by applicable state or federal law. We can help you understand our privacy practices and your rights.

**Permitted Uses and Disclosures**

**Treatment**

We may use and disclose PHI to doctors, hospitals, pharmacies and/or other health care providers who are involved in your care and treatment.

For example, doctors may request PHI from us for coordination of care purposes or doctors may send Company information about your diagnosis and treatment plan so we can arrange additional services. Company may also disclose your PHI to health care providers in connection with preventive health, early detection and disease and case management programs.

To the extent that we have your substance use disorder patient records, subject to 42 CFR part 2, we will not share that information for investigations or legal proceedings against you without (1) your written consent or (2) a court order and a subpoena.

**Payment**

To help pay for your covered services, we may use and disclose PHI in a number of ways – in conducting utilization and medical necessity reviews; coordinating care; determining eligibility and coverage; determining prescription drug compliance; collecting premiums; calculating cost-sharing amounts and coordination of benefits; and responding to complaints, appeals and requests for external review.

For example, we may use your medical history and other health information about you to decide whether a treatment is a covered benefit and what the payment should be – and during the process we may disclose information to your provider. We also use PHI to obtain payment for any mail-order pharmacy services provided to you or to obtain payment for premiums.

**Health Care Operations**

Company may use and disclose PHI about you to develop better services for you. Company may also send you information based on your own health concerns. We may send you this information if it has determined that a product or service may help you. These communications will explain how the products or services relate to your well-being and can improve your health.

**Research**

Under certain circumstances, Company may use and disclose your PHI for research purposes. Research projects are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients’ need for privacy of their medical information. Researchers are required to safeguard all PHI they receive. We may disclose your PHI without your authorization to medical researchers who request it for approved medical research projects; however, with very limited exceptions such disclosures must first be cleared through this special approval process.

**More Stringent State and Federal Laws**

There may be times where certain areas of state law is more stringent than the Health Insurance Portability and Accountability Act and associated regulations ("HIPAA"). Certain federal laws also are more stringent than HIPAA. Company will continue to abide by these more stringent state and federal laws.

The federal laws include applicable internet privacy laws, such as the Children’s Online Privacy Protection Act and the federal laws and regulations governing the confidentiality of health information regarding substance abuse treatment.

State law is more stringent when the individual is entitled to greater access to records than under HIPAA. State law also is more restrictive when the records are more protected from disclosure by state law than under HIPAA. For example, Ohio law may require that we obtain your authorization before releasing records containing HIV/AIDs diagnosis or before disclosing information regarding treatment you received at an Ohio licensed behavioral health facility. And in Idaho, electronic medical records must be provided by hospitals within three (3) days of the request being received.

Trinity Health Plan of Michigan **NOTICE OF PRIVACY PRACTICES**

*Policy last revised February 16, 2026*

## Protection of Information

Company understands that your information is highly personal and is committed to safeguarding your protected health information ("PHI"). Please read this Notice of Privacy Practices thoroughly. Company is required by law to maintain the privacy of PHI. We are required to provide you with notice of our legal duties and privacy practices with respect to PHI. We will only use or disclose your PHI as permitted or required by applicable state or federal law. We can help you understand our privacy practices and your rights.

### Permitted Uses and Disclosures

### Treatment

We may use and disclose PHI to doctors, hospitals, pharmacies and/or other health care providers who are involved in your care and treatment.

For example, doctors may request PHI from us for coordination of care purposes or doctors may send Company information about your diagnosis and treatment plan so we can arrange additional services. Company may also disclose your PHI to health care providers in connection with preventive health, early detection and disease and case management programs.

To the extent that we have your substance use disorder patient records, subject to 42 CFR part 2, we will not share that information for investigations or legal proceedings against you without (1) your written consent or (2) a court order and a subpoena.

### Payment

To help pay for your covered services, we may use and disclose PHI in a number of ways – in conducting utilization and medical necessity reviews; coordinating care; determining eligibility and coverage; determining prescription drug compliance; collecting premiums; calculating cost-sharing amounts and coordination of benefits; and responding to complaints, appeals and requests for external review.

For example, we may use your medical history and other health information about you to decide whether a treatment is a covered benefit and what the payment should be – and during the process we may disclose information to your provider. We also use PHI to obtain payment for any mail-order pharmacy services provided to you or to obtain payment for premiums.

### Health Care Operations

Company may use and disclose PHI about you to develop better services for you. Other routine operations requiring use and disclosure of PHI include population health and wellness; underwriting and premium rating; administration of pharmacy benefit programs; coordination of benefits; and other general administrative activities including information resources and data management. These communications will explain how the products or services relate to your well-being and can improve your health.

### Research

Under certain circumstances, Company may use and disclose your PHI for research purposes. Research projects are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. Researchers are required to safeguard all PHI they receive. We may disclose your PHI without your authorization to medical researchers who request it for approved medical research projects; however, with very limited exceptions such disclosures must first be cleared through this special approval process.

### More Stringent State and Federal Laws

There may be times where certain areas of state law is more stringent than the Health Insurance Portability and Accountability Act and associated regulations ("HIPAA"). Certain federal laws also are more stringent than HIPAA. Company will continue to abide by these more stringent state and federal laws.

The federal laws include applicable internet privacy laws, such as the Children's Online Privacy Protection Act and the federal laws and regulations governing the confidentiality of health information regarding substance abuse treatment.

State law is more stringent when the individual is entitled to greater access to records than under HIPAA. State law also is more restrictive when the records are more protected from disclosure by state law than under HIPAA. For example, Ohio law may require that we obtain your authorization before releasing records containing HIV/AIDs diagnosis or before disclosing information regarding treatment you received at an Ohio licensed behavioral health facility. And in Idaho, electronic medical records must be provided by hospitals within three (3) days of the request being received.

Trinity Health Plan of Michigan **NOTICE OF PRIVACY PRACTICES**

*Policy last revised February 16, 2026*

## Protection of Information

Company understands that your information is highly personal and is committed to safeguarding your protected health information ("PHI"). Please read this Notice of Privacy Practices thoroughly. Company is required by law to maintain the privacy of PHI. We are required to provide you with notice of our legal duties and privacy practices with respect to PHI. We will only use or disclose your PHI as permitted or required by applicable state or federal law. We can help you understand our privacy practices and your rights.

### Permitted Uses and Disclosures

### Treatment

We may use and disclose PHI to doctors, hospitals, pharmacies and/or other health care providers who are involved in your care and treatment.

For example, doctors may request PHI from us for coordination of care purposes or doctors may send Company information about your diagnosis and treatment plan so we can arrange additional services. Company may also disclose your PHI to health care providers in connection with preventive health, early detection and disease and case management programs.

To the extent that we have your substance use disorder patient records, subject to 42 CFR part 2, we will not share that information for investigations or legal proceedings against you without (1) your written consent or (2) a court order and a subpoena.

### Payment

To help pay for your covered services, we may use and disclose PHI in a number of ways – in conducting utilization and medical necessity reviews; coordinating care; determining eligibility and coverage; determining prescription drug compliance; collecting premiums; calculating cost-sharing amounts and coordination of benefits; and responding to complaints, appeals and requests for external review.

For example, we may use your medical history and other health information about you to decide whether a treatment is a covered benefit and what the payment should be – and during the process we may disclose information to your provider. We also use PHI to obtain payment for any mail-order pharmacy services provided to you or to obtain payment for premiums.

### Health Care Operations

Company may use and disclose PHI about you to develop better services for you. Other routine operations requiring use and disclosure of PHI include population health and wellness; underwriting and premium rating; administration of pharmacy benefit programs; coordination of benefits; and other general administrative activities including information resources and data management. individual for underwriting purposes as required by the Genetic Information and Nondiscrimination Act (“GINA").

**Other Uses and Disclosures**

Company may also send you information based on your own health concerns. We may send you this information if it has determined that a product or service may help you. These communications will explain how the products or services relate to your well-being and can improve your health.

**Research**

Under certain circumstances, Company may use and disclose your PHI for research purposes. Research projects are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients’ need for privacy of their medical information. Researchers are required to safeguard all PHI they receive. We may disclose your PHI without your authorization to medical researchers who request it for approved medical research projects; however, with very limited exceptions such disclosures must first be cleared through this special approval process.

**More Stringent State and Federal Laws**

There may be times where certain areas of state law is more stringent than the Health Insurance Portability and Accountability Act and associated regulations ("HIPAA"). Certain federal laws also are more stringent than HIPAA. Company will continue to abide by these more stringent state and federal laws.

The federal laws include applicable internet privacy laws, such as the Children’s Online Privacy Protection Act and the federal laws and regulations governing the confidentiality of health information regarding substance abuse treatment.

State law is more stringent when the individual is entitled to greater access to records than under HIPAA. State law also is more restrictive when the records are more protected from disclosure by state law than under HIPAA. For example, Ohio law may require that we obtain your authorization before releasing records containing HIV/AIDs diagnosis or before disclosing information regarding treatment you received at an Ohio licensed behavioral health facility. And in Idaho, electronic medical records must be provided by hospitals within three (3) days of the request being received.

State law also is more restrictive when the records are more protected from disclosure by state law than under HIPAA. For example, Ohio law may require that we obtain your authorization before releasing records containing HIV/AIDs diagnosis or before disclosing information regarding treatment you received at an Ohio licensed behavioral health facility. ## Pre-Enrollment Checklist

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a customer service representative at 800-964-4525 (TTY: 711).

### Understanding the Benefits

- ❑ The Evidence of Coverage (EOC) provides a complete list of all coverage and services. It is important to review plan coverage, costs and benefits before you enroll. Visit www.thpmedicare.org/michigan/for-members/plan-documents or call 800-964-4525 (TTY: 711) to view a copy of the EOC.

- ❑ Review the Provider Directory (or ask your doctor) to make sure the doctors you see now are in the network. If they are not listed, it means you will likely have to select new doctors.

- ❑ Review the Pharmacy Directory to make sure the pharmacy you use for any prescription medicine is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.

- ❑ Review the Formulary to make sure your drugs are covered.

### Understanding Important Rules

- ❑ In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.

- ❑ Benefits, premiums and/or copayments/coinsurance may change on January 1, 2028.

- ❑ [For HMO and other plans that do not offer out-of-network coverage] Except in an emergency or urgent situation, we do not cover services by out-of-network providers (doctors who are not listed in the Provider Directory).

- ❑ [For PPO and other plans that offer out-of-network coverage] Our plan allows you to see providers outside of our network (non-contracted providers). However, while we will pay for covered services, the provider must agree to treat you. Except in an emergency or urgent situation, non-contracted providers may deny care. In addition, you will pay a higher copay for services received by non-contracted providers.

- ❑ **Effect on Current Coverage:** Your current health care coverage will end once your new Medicare coverage starts.
