# Broker Action Plan

Your guide to year-round  
engagement of Trinity Health Plan  
of Michigan (HMO) members

Trinity Health Plan  
of Michigan

# How & Why To Use This Action Plan

You already know providing expert guidance and consistent support is the secret to retaining clients and winning referrals. This playbook provides resources to help you do exactly that.

Year-round outreach establishes a solid relationship with your clients and ensures they take full advantage of their plan benefits. They are more likely to find value in their plan and appreciate your recommendation. All of these things increase client satisfaction and promote loyalty, both to you and to the health plan.

Satisfied clients are more likely to renew their coverage, and refer you to their friends, family and neighbors.

## When you reach out to clients regularly, you:

- **Understand** their needs, which helps you position appropriate plan benefits that can increase their satisfaction
- **Create** a rapport as a trusted contact, someone who can help them navigate their health care decisions over the long term
- **Show** your clients you're available to help. Thanks to regular check-ins, you can anticipate challenges and your clients will count on you for your thoughtful support.

# The Advantages Of Reaching Out

The reason people stay with a Medicare Advantage plan goes beyond the coverage or the benefits alone. They stay because they understand their plan, know how to use their benefits and feel supported as they navigate the health care system.

When clients are supported, everyone benefits. You are a source of guidance for them and can make a difference in how they experience and appreciate the plan you recommended.

## Who benefits from good client support?

| YOUR CLIENT                                                                             | THE HEALTH PLAN                                        | YOU                                                         |
|-----------------------------------------------------------------------------------------|--------------------------------------------------------|-------------------------------------------------------------|
| Understands benefits, costs & how/where to get care                                     | Receives higher CAHPS, STARs & retention rates         | Gain trust as a partner vs. a transactional role            |
| Uses high-value services like \$0 benefits & supplementals                              | Retains more members & receives fewer complaints       | Extend your value beyond initial enrollment                 |
| Feels satisfied with their plan, experiences better health outcomes & renews their plan | Recognizes the long-term value of broker relationships | Build stronger relationships, driving retention & referrals |

**PROOF POINTS** Research shows **nearly 1 in 3 people** get help from licensed Medicare agents and brokers when looking for Medicare coverage.

## TOP TIP

**Be a good listener.** Sometimes people just need to be heard. A little care can go a long way to quickly resolving issues or putting clients at ease.

# Three Easy Ways To Increase Client Satisfaction

This guide helps map your client outreach throughout the year. It's important to proactively meet your clients' needs, answer their questions and help them get the most value from their plan.

The discussion topics and timelines in this guide are suggestions to keep your outreach going. We have a shared mission to meet the health care needs of members and ensure they feel supported along the way.

## 1 Prepare

Anticipating questions, preparing answers and knowing important dates ensure clients feel confident in their health plan choice.

## 2 Listen

Giving clients your full attention and asking questions along the way is the easiest way to build trust.

## 3 Help

Your goal is to make Medicare easier! By tailoring information to each client, you're providing peace of mind.

*I'd like clear answers to my questions*

## TOP TIP

**Mix it up!** Reaching out across different channels increases engagement value and prevents message fatigue.

# Connecting With Your Clients

Getting to know your client is the best way to learn their preferred communication. However, some forms of communication are better suited for certain types of content. Here are some tips on when to use which:

### Email

- Links to resources & documents
- [See email templates](#)

- Quick answers to straight-forward questions
- Appointment confirmations

**PROOF POINTS** Customers who interacted with their insurance advisor **at least once a quarter** increased their average customer experience score by 67%, according to McKinsey & Company.

# Application Submission & Plan Activation

**Get off to the best start.** Instill confidence in your clients before their plan takes effect. They've selected a plan that fits their needs; now is the time to reinforce that they made the right choice and have a lot to look forward to.

**Benefit:** Consistent communication builds vital trust. Setting clear expectations up front strengthens the client's relationship with you and solidifies their confidence in the plan you recommended.

# Second Quarter: Exploring Full Benefits

**We're nearing the halfway point.** With basic coverage settled, now is the ideal time to highlight extras like the Over-the-Counter (OTC) Allowance and fitness benefit. Valuable perks are frequently underutilized, and promoting them helps your clients make the most of their plan.

**Benefit:** Increased plan usage drives higher perceived value. Even if clients don't use every extra, reminding them these features are available can significantly boost their overall satisfaction.

## SPOTLIGHT SERIES: OVER-THE-COUNTER ALLOWANCE Month 4

# Third Quarter: Positive Momentum

**Give them a boost.** Although it's too early for renewal discussions, this period is ideal for checking in. Clients have used their plan long enough to evaluate its performance. Touch base to gauge their satisfaction and reinforce the continuous value their coverage provides.

**Benefit:** Solidify your role as a trusted advisor. By addressing any hidden concerns during this quieter period, you foster strong, positive sentiment that naturally paves the way for smooth future retention.

## HEALTH PLAN CHECKUP Month 7

### Phone

A third quarter checkup can lay the groundwork for a strong finish. Questions should be conversational but targeted enough to uncover hidden pain points before renewal season begins.

You and your client have time to resolve issues and still have a positive effect on the remaining plan year.

- Phone script is [available here](#)

## Retention, renewal and happy returns.

According to MarketWatch, most broker compensation now comes from plan renewals rather than new enrollments.

## Here's what members are receiving at this time:

### Annual Notice of Change (ANOC)

(In homes by Sept. 30)

## FOLLOW-UP CONVERSATION Month 8

### Phone

This is your opportunity to follow up with your client after the "Health Plan Checkup" conversation you had last month. If you uncovered hidden pain points during your last call, have they been resolved?

As fall approaches, be sure your client feels confident about their coverage – and knows they can trust you to help them resolve issues.

## ANNUAL NOTICE OF CHANGE (ANOC) Month 9

- Video is [available here](#)

# Last Quarter: Preparing for Renewal

**Benefit:** Coverage stability is important to Medicare members. Your consistent attention helps position you as their permanent trusted advisor.

## ANNUAL ENROLLMENT

### Month 10

#### In-person/Phone

An in-person meeting or phone call is the best way to reassure your client they are prepared for next year.

Verify provider networks, review prescription changes and check for any recent health or lifestyle updates.

In most cases, renewal is automatic. It's important to let clients know they don't need to take any action during the AEP timeframe.

- Follow-up email template is [available here](#)

“We covered a lot of information. But the most important thing to know is that getting medications you take regularly through Caremark can save you time and money. Do you want me to go over the next steps to get the service set up?”

If YES: “Great! Would you prefer to sign up [online](#), by [form](#), or by phone (866-785-5714, option 2)?

If NO: “That’s perfectly fine. Can I ask what makes you feel it’s not the right option for you? I’d be happy to answer any questions if it would be helpful.”

5. Next Steps

**Objective:** Make sure clients know what to do.

Depending on the client’s preference, walk them through one of the following:

- ✓ Clients can register on the [Caremark website](#) (go to **Get started** and select **Register for an account**). Help them set up an account, add payment information and request one or more prescriptions.
- ✓ Clients can complete the [paper form](#)
  - They received the **Mail Service Pharmacy Form** along with their Member Guide when they first joined their plan. If they don’t have it on hand, you can email it to them.
- Clients can call Caremark (866-785-5714, option 2)

6. Offer Additional Support

**Objective:** Deliver excellent client service by seeing if they have any additional questions or need any extra help or support.

**Example:**

"I’m so glad we got an opportunity to talk today. I think you’ll be happy with your mail service prescriptions.”

“Before I go, please let me know if you have questions about anything we just discussed. I’m also happy to stay on the line a bit longer if there’s anything you need help with regarding your plan or benefits.”

7. Wrap-Up

**Objective:** Say goodbye (for now).

**Example**

"Thanks for your time, [Client Name]. Enjoy the rest of your day!"

# PHONE SCRIPT

**Call Purpose:** Help Clients Use Their Benefits

**Estimated Time:** 15 minutes

**Quick Reference:**

- Find out which supplemental benefits clients are using and where they may need help
- Ask questions, listen and position benefits to meet client needs
- Help clients get more value from the benefits included with their plan

## 1. Opening And Check In

**Objective:** Reintroduce yourself and set the client at ease. Make sure there isn’t a more pressing issue they need to discuss before jumping into the reason for your call.

**Example:**

"Hi, [Client Name], this is [Your Name] with Trinity Health Plan of Michigan. I hope you’re doing well."

"If you have about 15 minutes, I’d love to hear how your health plan is working out and answer any questions you may have. I’d also like to talk about some of the supplemental benefits your plan includes. How does that sound?"

**Example for leaving a voicemail:**

"Hi, [Client Name], this is [Your Name] with Trinity Health Plan of Michigan. I hope you’re doing well."

"I'm calling to see how your health plan is working out for you, and I’d also like to talk about some of the supplemental benefits your plan includes. Please give me a call back at [Your Phone Number] when it’s convenient for you. Thanks!"

## 2. Set The Expectation

**Objective:** Find out which supplemental benefits a client is using, identify benefits that may be relevant to their needs and help them understand how to use them.

**Example for transitioning after having a short conversation:**

"I’m glad we had a chance to chat for a few minutes and talk about how your plan is working out for you."

"Do you still have a few minutes to talk about benefits? We can discuss the benefits you’re using, and I can answer any questions you may have. I can also tell you about the benefits your plan includes and help you start using them."

**Tip:** Don’t worry if the client naturally steers the conversation in another direction. At the end of the call, you can make plans to discuss benefits in the future.

## 3. Topic Discussion

**Objective:** Ask open-ended questions to determine what benefits/services a client is already using. Use their interests and needs to guide which benefits/services you ask about next.

**Tip:** If possible, review the information below in advance so you can explain it in a way that feels natural to you. Use it as a reference during the conversation as needed.

| Benefit/service and conversation prompts                                                                                                                                                                                         | Highlights                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

4. Key Message

**Objective:** Summarize your speaking points into one key message you want clients to remember.

**Example:**

“Your plan includes several benefits and services that are designed to make it easy to get the care you need and stay within your budget. Do you have any additional questions about anything we discussed, or are there any benefits you need help using?”

**Tip:** While you can’t create online accounts for clients, you can walk them through the steps, help them contact Member Services, answer their questions and more.

5. Next Steps

**Objective:** Empower clients to get familiar with all their plan benefits while knowing they always have support.

**Example:**

“I know we covered a lot today — but we didn’t cover everything. Before I go, I’d be happy to email you a link to a webpage on the Trinity Health Plan of Michigan website called [Member Resources](#). It’s a complete list of your plan’s benefits and services you can reference anytime. And if you ever have questions about a benefit or how to use it, please don’t hesitate to reach out to me.”

6. Wrap-Up

**Objective:** Say goodbye (for now).

**Example**

"Thanks for your time, [Client Name]. Enjoy the rest of your day!"
